

Buyers Love Our Audio Tours... **And You'll Love em' Too Cause They're FREE!**

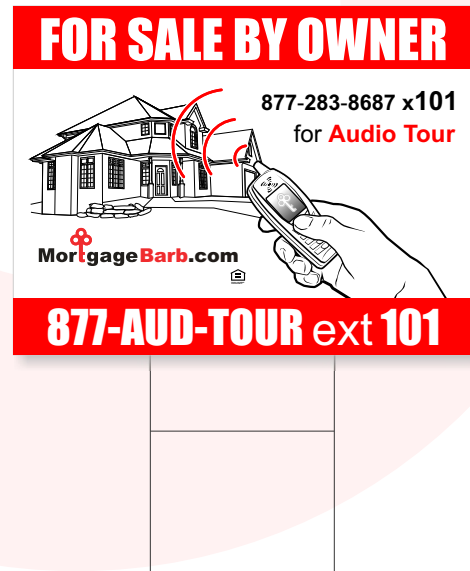

It Starts With A Sign - I'll deliver, ABSOLUTELY FREE, a professionally printed and visually eye captivating yard sign to your door! It's printed with a unique extension that when dialed, plays a professionally recorded audio tour of your home... all generated by our amazing online Ad Wizard program.

When Buyers Call - My automated phone system software will attempt to reach you after the audio tour is finished so that your prospective buyers can talk to you if they desire.

Reverse Look-Ups - "Shy" callers who elect to hear your audio tour only, are logged and recorded by my automated software. My software then performs reverse phone look-ups on each call and attempts to help the buyer with mortgage or pre-qualification needs (this qualifies our buyers).

Why I Do It - I maintain long, lasting relationships with all of my clientele by providing excellent service and innovative tools like this to help both sellers and buyers! I am confident when you're ready to finance your next home, you'll remember me...
